

### Sculpture casting bronze table

This table is modeled after our Elliptical cylinder casting bronze table. We aimed to bring to life a sculpture-like shape, which draws attention to the fact that its hallowed leg section is cast metal. By hollowing out the support leg, we succeeded in not only giving the table a bold presence; in terms of structure, the two support props also allow the table to hold the large tabletop.

The elliptical tabletop gives off a soft impression and helps to create a space in which many people can sit and face each other in a relaxed, roomy environment.
