

Wave composition cabinet

A number of size variations are available in order to fit any space and use in living room, dining room and bedroom. This cabinet creates atmosphere of tranquility and dignity by placing and connecting several cabinets, which brings spacious feeling.

The appearance created by the wood grain and wavelike concavity and convexity generates beautiful shades that look like waves on a calm water surface. The contrast between the wavelike sharp finish and the dull luster of the brass legs provides stability to the cabinet.
