

FU

Designed by Kengo Kuma

We interpreted partitions, which are often simply made with inorganic materials, as an important piece of furniture that loosely divides a space. The upholstery fabric or leather adds a decorative twist to this functional partition. It pleasantly defines boundaries in places such as entrances of commercial facilities, meeting spaces in offices, and dining and living rooms at home, flexibly forming areas depending on your purpose.

The FU collection commonly has a soft puffy design with urethane cushion filling and hems stitched with a lock sewing machine, naturally fitting in with any surroundings.
