

TS

Designed by Kengo Kuma

TS is a side table derived from the silhouette of the KA sofa by Kengo Kuma. The metal-plated leg match the shape and angle of the sofa leg. Placed side by side, the table and sofa create a continuous horizontal surface. This seemingly impossible proportion is realized by the gentle incline of the backside, which is connected from the end of the table to the centre. TS gives off a magical charm as if it consisted of thin boards.
