

Falcon chair

This standard armchair features armrests, stiles, and a backrest that beautifully connect together in a natural shape. Thanks to the careful, highly refined construction of its wooden frame, users can fully enjoy the feel of the materials. The chair's straight, slender legs are given a slight bulge where they connect with the seat frame. Also, by making the seat frame thick, the chair's centre of gravity is lowered as a whole, an accent is created within its quiet appearance, and a greater sense of stability is achieved.
