

### The curving chair

This chair is the one what comes to mind when one imagines the most standard chair. Carefully carved from solid wood, a smooth curved surface connects the entire frame.

A thinly shaped backrest and legs with elliptical cross-section merge through natural curves while maintaining sharpness. This is the rare sort of product that realizes the sophisticated skills needed to give wood a smooth and delicate expression. It is designed using the same language as the Twisted back chair. This is a standard chair with the tranquil presence which can blend in any occasion and space.
