

Transit sofa wood

This sofa was developed with the aim of creating the simplest of sofas that are minimalist, compact and comfortable to sit in. We made these sofas to achieve a nice and simple balance between minimalist design and functionality. While keeping the whole size as small as possible, we adjusted the thickness of the arms, backrest, and seat so that they would not look skimpy. We also realized seating comfort by using compact pocket coils inside the seat, which provide moderate resilience for a thin seat.
