

Mingle console

The Joseon dynasty of Korea lasted for about 500 years from around 1400 AD. During this period, furniture, ceramics, and other goods were introduced to Japan.

The Mingle series follows the design presented as furnishings from the Ming Dynasty. It has a humble design with only delicate beading added to the frame, but the use of careful craftsmanship techniques has given it a tranquil presence. Merging with the oriental historical background, it discovers that fuses with contemporary living spaces through Japanese woodworking techniques.
