

Arrow

Comprising parts carved from solid wood, this chair was developed on the concept of a standard chair. Curves that you unconsciously want to touch and complex joints are all precisely carved from natural wood and polished by artisans for an exquisite finish. The stile that is slightly carved to support the back connects seamlessly with the backrest. The backrest has been carved from solid wood to emphasize the wooden expression. The chair's straight-as-an-arrow form and the texture of the wood simultaneously bring a sense of lightness and softness to spaces.

Comprising parts carved from solid wood, this chair was developed on the concept of a standard chair. This is a simple chair with curves and complex joints that you unconsciously want to touch. Those are all precisely carved from natural wood and polished by artisans for an exquisite finish. So that the natural wooden texture does not give a heavy impression, the backrest, seat frame, and armrests have a sharp form that gives a sense of lightness.
