

### Meditation

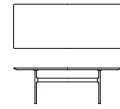

Meditation is a product that specifically pursues a lightweight design with its cast metal legs. The straight support column that holds the tabletop splits into two branches towards the floor, and the straight horizontal bar penetrating both legs is a distinctive feature. This simple yet calculated structure skillfully balances straight lines and curves, achieving a nimble and powerful design reminiscent of aircraft wings or frames seen in competitive bicycles.

The design of this table symbolizes a certain purity in simplicity, reflecting an attitude seeking the clarity of mind and inner tranquility in Zen practice and meditation. By eliminating unnecessary elements and focusing on the essence, the aim is to create a harmonious product. The option of bronze satin finish or black stain, along with combinations with rectangular or oval tabletops, offers different atmospheres. The aluminum version with a mirror-polished finish has a slightly shallower tabletop, making it suitable for use as a desk. The combination of a simple yet robust design with a solid oak tabletop makes it a user-oriented product.
