

The bent chair

This chair was created at Japan's only bentwood furniture factory, which continues to make use of traditional methods. Its structure, composed of a minimal number of bentwood parts and a rattan backrest, combines the modern and the classic to express a bentwood chair in the unique design language. The rattan backrest confers not only design but also a delicacy and familiarity through gentle, back-supporting comfort, for a chair that can be used by a wide range of generations.
