

Cats chair

By making the seat frame rounded, there is consistency with its connection to the round armrests and legs, and we added more lightness by changing the diameter of the bars connected from the seat frame to the ends of the legs. The process of adjusting the backrest, stiles, and armrests, each of which is made up of separate parts, and we relied on the feeling of our hands to improve the perfection.

Cats chair

I-431 armchair
W541×D582×H787×SH440×AH594
